

# 1,000 Deer Slaughtered In Collier County As State Carries Out Tick Killing Plan

Officials Say Re-Stocking Will Tick-Free Deer Next Year

Close by the scene of deer slaughter, the Fort Myers News Press came out with a story yesterday that will be of interest to every hunter in the Lake Okechobee region. The interesting story tells of progress being made in Collier county in the deer slaughter campaign. About 1,000 deer, have been slaughtered so far according to reports used in the story. In order that Glades hunters may familiarize themselves with the goings-on down in Collier county we are reproducing the story from the Fort Myers News Press. It follows in full:

Sharp-eyed hunters, some hunting for fun, others for meat and still others for pay, have killed more than 1,000 deer in the vast Collier county breeding ground since the 1939 legislative authorized extermination of Florida's favorite game animal on the theory that such slaughter will help eradicate cattle fever ticks. The 1,000 death toll was announced by Dr. J. V. Knapp, director of the state livestock sanitary board, but local woodmen are of the opinion that probably twice that number of deer, bucks and fawns have been shot down.

Sheriff Bob King, enthusiastic woodman, said yesterday that his camp had accounted for more than 60 deer. He said some hunters and claimed shooting as many as 50 deer. The number killed is supposed to be reported and hides checked in with livestock board.

About 15 years ago, Florida started a campaign to wipe out the cattle fever tick which crippled its livestock industry. Law passed by the legislature required frequent dipping of livestock in a solution which kills ticks. After expenditure of about \$2,000,000, the eradication campaign apparently had succeeded, and federal and state inspectors declared most of the cattle producing areas tick-free.

Then new outbreaks of ticks developed in sections of Highlands, Glades, Orange and Collier counties. Experts found that deer, living in swampy places and in game breeding areas, were infected. When high water in the swamps drove deer out to dry ground, ticks spread to cattle on the grazing ranges.

"We realized then," Dr. Knapp explained, "that if we stamped out the tick in these sections we must get them off the deer. Obviously, the deer could not be trapped and dipped. The only alternative was slaughter of the deer while dipping of cattle around the swamps and breeding grounds continued to prevent spread of the ticks among cattle."

The 1937 Florida legislature authorized slaughter of deer in Glades, Highlands and Orange counties, and the livestock sanitary board, hired experienced hunters with dogs to track down

the animals and destroy them. Dr. Knapp estimated about 750 deer were killed in the three counties.

"The campaign has been highly successful," he said. "We've finished down here now, and Glades and Highlands counties will be declared tick-free by Dec. 1. Orange county will be free next year."

Restocking with tick-free deer obtained from other breeding grounds will be started next year, Dr. Knapp said. Sportsmen proposed the "paid hunter" plan but court upheld authority of the livestock sanitary board to destroy the deer in its tick-eradication drive. When the 1939 legislature authorized the deer slaughter in the 300,000-acre Collier county game preserve, it directed that sportsmen hunters should be allowed to participate. The hunt started July 1. Persons were required to obtain a state hunting license, which cost \$5.50, plus a special Collier county deer license, also costing \$5.50. About 700 licenses were sold.

"Our reports indicate that about 1,000 deer have been killed," Dr. Knapp said. "About 90 per cent were killed by sportsmen. Out paid inspectors engaged by the hunt, too, but they handed over to the unsuccessful sportsmen the deer that they killed."

The cattle fever tick has not been found on deer in North Florida sections where there are such famed hunting grounds as the Ocala national forest, the "big scrub," the Gulf hammock, the Aucilla-Aucilla river lowlands, the Apalachicola river valley.

The tick soon dies of starvation, experts declare, if it cannot attach itself to some animal. The fever tick does not feed on rabbits, fox and small game. In cattle it causes severe loss of weight and

death by sapping blood and producing fever conditions.

Areas where tick infestation exists are quarantined and livestock cannot be shipped out except after dipping treatment and follow-up inspection to show that the animals do not bear ticks.

## New President For Power Company

Miami, Sept. 11.—McGregor Smith was elected president and general manager of the Florida Power & Light Co. today.

Smith succeeded Bryan C. Hanks, who resigned to organize with William Preston a law firm that will handle the power company's legal affairs.

The new president joined the company as vice president and general manager after resigning the presidency of the Louisiana Power & Light Co. He is 40 years old and an engineering graduate of the University of Tennessee.

Hanks was elected a director with Smith, H. E. Simpson, who was re-elected secretary-treasurer, J. H. White, general superintendent, and Ralph Y. Pool, head of the company's ice department.

## SECOND PUMP ARRIVES

The South Shore Drainage District has received a second pump for installation at the Observation Point culvert site. Couch Manufacturing company of Grant, Fla. is installing a pump which will be serviced by a stationary engine. The capacity of the pump will be more than doubled with this new pump in action.

Richman men of Kobe, Japan, have been boosting rates, and the city officials have decreed that they must stick to the original schedule or face a fine.

## Panoramic View Of The New York Fair

(By T. J. Brooks)

I went to the New York World's Fair. As a matter of course I made a bee line for the Florida exhibit, after which I visited city and state exhibits. No unbiased person can say that any other state exhibit of this sort of Florida. The ground was devoted to the Florida National Exhibits. No other state was given space. It faces a beautiful spot opposite the amusement center. It is the only exhibit with a court of fountains, and a monumental tree. Thousands of trees, plants and shrubs decorate the grounds and fountains.

After a visit to the exhibit, I returned to the city. It is the only state exhibit at which the business and art at which the name of the exhibit is not repeated by the artist. It is a part of the fair grounds for 10.

The first thing one sees as he enters the front of the building is a display of 144 different types of Florida canned fruits. Farther along is a giant jacking machine in which oranges pour from a conveyor; the oranges are peeled, then juiced and served right over the counter. Rich here is made.

A fish counter is over a fresh orange juice and shiraz. It is not anywhere else in the world. No trade ever touches the juice in the process. It meets all the requirements of the New York law on sanitation. This jacking machine has a capacity of 1,000 gallons an hour.

The main exhibit hall is crowded with a sky blue barometer and fleecy clouds are continually clattering overhead and sunrise on the east alternates with sunset on the west at regular intervals.

Booths line the walkway, which has three elevators permitting three platforms. Three booths depict various industrial and landscape scenes in the state by colored dioramas. At the end of the hall is an immense animated diorama—the largest ever made depicting the citrus industry in all its phases. Tung oil, tropical fruits, unusual products of mine and factory are all there at intervals along the walkway.

Space will not permit details of the many things shown. The architectural design is the most striking of all the state exhibits at the fair grounds. It is built of native materials such as Florida pine, cypress, rock, cement, ornamental coquina finish, etc. A beautiful tower, reminiscent of Spanish cathedrals, contains the world's largest calendar, which rings out over the fair grounds, days and evenings.

The World's Fair at a whole is stupendous. When fair experts invest \$15,000,000 in bringing together the last word on the achievements of man it is worth any one's time to see it. He who cannot appreciate the best of all man has done with a glimpse of the future is short on perception. It is inspiring to see and study the masterpieces of the genius of man. One cannot but hope for the future when such evidence is set forth of the capacity for mastering the forces of nature and appropriating them to the use, comfort and culture of mankind.

The foreign exhibits are worthwhile. Russia spent over \$1,000,000 on her grounds, buildings, and furnishings. England, Italy, France, Greece, Roumania, Portugal, Turkey, Japan, Canada, Palestine, Cuba and Sweden all have exhibits worth seeing. The federal building is a pretentious edifice and offers themes for study.

Last, but not least, are the exhibits of corporations. General Motors centers its exhibits on the theme of "The World of Tomorrow." The lecture delivered in the auditorium in this building is worth a trip to New York to the student of science and the future of humanity. We cannot dwell on it. The trip on the new subway tour shows a cross-section of America as it is visualized to be by 1960. This "Futurama" covers 35,738 square feet.

Ford has an educational exhibit, much of which is devoted to making parts of his great motor cars the onlooker's eyes and with an announcer explaining the process. Chrysler exemplifies the "evolution of means of transportation" down the ages—an impressive message.

I can only mention a few outstanding exhibits of national concern. Firestone, National Cash Register, United States Steel, Westinghouse, R.C.A. Food Concerns, Du Pont, Glass Company, General Electric, Music and Art.

The amusement centers is of 112

better class, most of it clever and clean.

The quickest and cheapest way to learn of the active, dynamic world in which we live is to visit the fair.

New York City itself is indeed worth the trip to see. I have only to mention Rockefeller Center, Radio City, Metropolitan Museum of Natural History, Riverside Drive, Wall Street, Trinity Church Cathedral, Lincoln, the Empire State Building, and the giant statue Queen Mary and Normandy.

There is out one New York City. No other city has buildings 800 ft. high. No other has the financial power and no other the throbbing world of commerce. Go and see.

Punta Gorda had a big day last week when fisherman Ashley Davids, from the Lemon bay section, lassoed a whale and succeeded in towing him ashore, off Punta Gorda beach, still alive. Stewart Springer, biologist with the Bureau laboratory, said the specimen was a sperm whale, an inhabitant of warmer seas. The whale measured 11 feet 4 inches in length. The skeleton was sent to Chicago where it will be exhibited in a museum.

Weather Bureau Gives 24-Hour Service

A more extensive system of preparation has been worked out by the United States Weather Bureau whereby they can gain information and disseminate complete warnings about approaching cyclones and hurricanes.

Bureau chief F. W. Reichelderfer, says the hurricane warning service is based on observations twice daily from over 80 stations in the West Indies and the Caribbean and two to four times daily from vessels in the Gulf of Mexico, Caribbean, and West Indian waters.

Whenever indications show a hurricane forming, special observations are made at two to three hour intervals by ships and stations in that area and relayed to the four forecast centers, Jacksonville, Washington, New Orleans and San Juan.

This routine enables the bureau to gain information as to the intensity and location long before it enters American waters or approaches the coast. Warnings are issued every six hours until the storm reaches the coast line, at which time warnings are issued hourly.

Twenty-four hour service is maintained at all times. Direct teletype connections are being made for the larger population centers.

## Complete ELECTRICAL SERVICE

SIMMONS ELECTRIC CO.

#### Mr. Dechman Is

Honored With Party

Mrs. W. P. Jernigan entertained with a bridge party at her home in Canal Point Saturday afternoon in honor of Mr. J. V. Dechman who has left to make her home in Bunnell. Four propositions were played and Mrs. J. V. Dechman was awarded for making high score. Mrs. A. Hansen made a second high and Mrs. Dechman was presented with a guest prize. Mrs. Frank Colson won the consolation prize. Delicous refreshments were served to the following guests: Mrs. L. J. Fraser, Mrs. C. G. Coburn, Mrs. G. L. Sims, Mrs. John Dulaney, Mrs. Gertrude Colby, Mrs. P. M. Hoehnel, Mrs. E. L. Pope, Mrs. A. Hansen, Mrs. Frank Colson, Mrs. J. V. Fourny, Mrs. A. W. Fowler, Mrs. R. S. Sartoris, Mrs. Preston White, Mrs. Paul Rardin, Mrs. Pierce of Atlanta, grandmother of Mrs. Dechman, and the honoree.

#### Garden Club To

Meet

The Community Garden Club will hold its first meeting Monday afternoon at the home of Mrs. H. T. Williams, Pahokee, at 3 p. m. Tuesday, Sept. 19th. Mrs. Bob Chamberlain will be cohostess.

St. Mary's Catholic Church on Canal Point Road will undergo extensive repairs soon, according to the Rev. L. V. Flynn. Plans call for the remodeling of the church tower with a belfry for the installation of a new bell, inside decorating and outside painting.

Mr. and Mrs. T. Dechman returned to their home in Pahokee Saturday night after attending several days in Jacksonville attending to business and visiting relatives.

Miss Sue Parrish has returned here from Parrish, Fla., to resume her teaching at the Pahokee elementary school. She was accompanied by Mrs. Lena Parrish, Miss Florence Parrish, and Mrs. J. T. Britt, also of Parrish, who are visiting here this week.

Mr. and Mrs. D. W. Clark and son Dan, have moved from Clewiston into one of the Thomas cottages on Lakeford Terrace.

Mr. and Mrs. H. Kold, Mr. and Mrs. Abe Dobrow, Louis Gold and Jerry Gold spent Wednesday and Thursday in West Palm Beach attending Ron Hashbach services.

Miss Gladys Folsom of Monticello, Fla., arrived Sunday to take her place as a teacher in the Pahokee schools. She will make her home with her sister, Mrs. W. P. Jernigan and family.

Miss Mabel Fletcher, who attended summer school at the University of Virginia, has returned to her home in Pahokee. She is attending school in Okeechobee this year.

The Palm Service Station and Garage is being re-roofed this week with slag, complying with the city's requirement of fire proofing on all buildings in the inner fire zone, according to George Rogers, building inspector.

Ben Long, Warren Hatfield, David McCormick and Mrs. E. Hall, all of Vero Beach, were recent guests here of Mr. and Mrs. E. L. Waldschlager and son, J. E. Waldschlager.

Mr. and Mrs. John Dragon have returned from a month's vacation spent in Boston, Mass., and other cities in the North.

The officers and teachers of the Methodist Sunday School, at the meeting Monday evening, discussed plans for a membership drive and announced Oct. 1 as Sunday School rally day.

The Rev. Fred L. Martin attended at a recent meeting in Port Pierce, Missouri. He was accompanied by his daughter, Jacqueline, who was the guest of the Rev. and Mrs. J. A. Tolle and daughter, Betty Jo, while there.

Mrs. Ora W. Powell, accompanied by her daughter, Miss Nell Williams, left Sunday for Tallahassee where Nell will enter college. Mrs. Powell returned to her home in Pahokee Wednesday.

Virginia Young, daughter of Mr. and Mrs. David Young, has returned from a city home with grandparents, Mr. and Mrs. G. H. Heath, in Vero Beach.

#### Intermediates

Enjoy Beach Party

A beach party at Lake Worth Casino was enjoyed Tuesday afternoon by members of the Intermediate League. Those attending were Lois Byrd, Erma Udell, Joy Lou Bailey, Lavon Batchelor, Melvin Spooner, George Gant, Charles Wilkinson, Charles McQuail, Dorothy Triffin, Dorothy Carpenter, Ona Padgett, Virginia Young, Ed. W. Sims, Miss Gilbert, Inez Maloy and the Rev. and Mrs. Fred L. Martin.

#### Miss Folsom Guest

Of Honor At Party

Mrs. G. B. Sartoris entertained with a bridge party at her home Wednesday afternoon in honor of Miss Gladys Folsom who has returned to Canal Point to teach in the local school this year. Refreshments of ice cream, devils food and angel food cake were served to the following: Mrs. J. V. Dechman, Mrs. W. P. Jernigan, Mrs. G. L. Sims, Mrs. A. W. Fowler, Mrs. Preston White, Mrs. P. M. Hoehnel, Mrs. T. M. Dechman, Mrs. John Dulaney, Mrs. H. T. Williams, Mrs. Harold Rosenberg, Mrs. Paul Rardin and Miss Folsom. Mrs. Ralph Mock was winner of high score prize and Mrs. Coburn won the second high award. Miss Folsom received a beautiful guest prize.

#### Fish Fry and

Skating Party

A fish fry on the government levee, followed by a skating party at the Belle Glade rink, was enjoyed Monday evening by Mr. and Mrs. C. C. Crutcher, Mr. and Mrs. Leo Maxwell, Miss Marcia Minn, Miss Nell Huggins, Mrs. E. L. Crutcher, Mr. and Mrs. Lewis Friend and Earl Lindorse.

Miss Sara Sanders, Miss Geraldine Shive, Miss Sibyl Sanders, Miss Hannah York and Miss Geraldine Thomas left Sunday for Tallahassee where they will attend college.

Melban Cate of Miami was a guest here over the weekend of Mr. and Mrs. P. M. Cate, Jr.

Rev. O. H. Gant of Lake Worth was guest speaker at the Pahokee Townsend club Thursday night.

Mrs. J. T. Guerry and Mrs. D. M. Lovell entertained a group of children with a lawn party and picnic at the home of Mrs. J. T. Guerry on Bacon Point Road, Friday evening. Those attending were Sam Lovell, Lillian Weathers, J. T. Guerry, Jr., Wylene White, William Guerry, Madee White, William Weathers, Catherine Guerry, Jimmy Conrad, J. A. Weathers, Merle Smith, Joyce Lovell, Eloise Weathers, Hollis Whitman, Doretha Weathers, Ernest Maxwell, and Burton Chantry.

Mrs. G. W. Byrd entertained her Sunday School class with a party in the recreation room of the Methodist Church Monday evening. Those attending were: Joan Gilliland, Barbara McLean, Dorothy Gilliland, Evelyn Cobb, Joan McLarty, Betty Jean McLarty, Phyllis Belle, Margaret Hillard and Margaret Davis, Nancy Brewton, Anna Humphries, Evelyn Maloy, Joy Padgett, Nancy Lou Breton, Erma Justice and Lois Byrd.

The Margery Lair and Mabel Simonson Circles of the Methodist Women's Missionary Society met jointly in the church, auditorium Monday afternoon. Mrs. Fred L. Martin presided and Mrs. H. C. Graham led devotionals.

Those from Pahokee who attended the singing convention at Fort Pierce Sunday were: Mrs. Mae Wilder, Mrs. P. W. Watson, Mrs. H. C. Graham, John M. Gledhill and Olin Cowart.

Mr. and Mrs. Dan Dechman left Canal Point Monday for their new home at Bunnell, Fla. Mr. Dechman will attend to the farming interests of his father, T. M. Dechman, in Flagler county.

A group of young people from Pahokee attended a picnic and beach party at Jupiter Beach Sunday. Attending were Misses Dorothy Triffin, Iris Murphy, Martha Chesling, Mickey Hodges, Lucille May, Miss P. Watson, Mrs. H. C. Graham, John M. Gledhill and Olin Cowart.

Mr. and Mrs. Dan Dechman left Canal Point Monday for their new home at Bunnell, Fla. Mr. Dechman will attend to the farming interests of his father, T. M. Dechman, in Flagler county.

A group of young people from Pahokee attended a picnic and beach party at Jupiter Beach Sunday. Attending were Misses Dorothy Triffin, Iris Murphy, Martha Chesling, Mickey Hodges, Lucille May, Miss P. Watson, Mrs. H. C. Graham, John M. Gledhill and Olin Cowart.

Mr. and Mrs. Dan Dechman left Canal Point Monday for their new home at Bunnell, Fla. Mr. Dechman will attend to the farming interests of his father, T. M. Dechman, in Flagler county.

A group of young people from Pahokee attended a picnic and beach party at Jupiter Beach Sunday. Attending were Misses Dorothy Triffin, Iris Murphy, Martha Chesling, Mickey Hodges, Lucille May, Miss P. Watson, Mrs. H. C. Graham, John M. Gledhill and Olin Cowart.

Mr. and Mrs. Dan Dechman left Canal Point Monday for their new home at Bunnell, Fla. Mr. Dechman will attend to the farming interests of his father, T. M. Dechman, in Flagler county.

A group of young people from Pahokee attended a picnic and beach party at Jupiter Beach Sunday. Attending were Misses Dorothy Triffin, Iris Murphy, Martha Chesling, Mickey Hodges, Lucille May, Miss P. Watson, Mrs. H. C. Graham, John M. Gledhill and Olin Cowart.

Mrs. W. H. May is a patient at Jackson Memorial Hospital in Miami, where she recently underwent an operation.

Mr. and Mrs. Frank McCoy were called to Miami Sunday because of the serious illness of his sister at the Jackson Memorial Hospital.

Misses Maida Harrington, Gloria John Dulaney, Hazel Hull, Kathryn Hull, Virginia McClure and Ruby Jean McClure left Friday for Lakeland where they will attend Southern College.

Mr. and Mrs. H. L. Jaudon and son, Roger, accompanied by Mr. and Mrs. Jack Spencer of Okeechobee, visited Mr. and Mrs. Jimmy Barnes in West Palm Beach over the week end.

Mr. and Mrs. J. V. Fourny of Canal Point were called to Louisiana Monday on account of the death of Mr. Fourny's mother.

Mrs. J. V. Thomas spent the week end in West Palm Beach with John Harris of Belle Glade who is ill in that city.

Mrs. L. J. Franke and daughter, Young Lee, Mrs. Earl Moore and daughter, Patay, Mrs. Lewis Davis and Mrs. Ruby Faulk were shoppers in West Palm Beach Tuesday.

Mr. and Mrs. Brooks Bateman have returned to their home in Pahokee after spending several days at their home in Coral Gables.

Mrs. Alice Elarbee of Miami Beach spent Tuesday in Pahokee attending to business.

#### At The Theatres

Believing that film audiences will welcome a gay respite from the pressure of present-day living, Walter Wagner has produced a diverting story of college life in "Winter Carnival," starring the vivacious Anna Sheridan with Richard Carlson and featuring a large cast of Hollywood's outstanding stars.

"Winter Carnival" is directed by Charles F. Reisner. "With economic and wit-threat pressure bearing down on every quarter, much of our second feature has become heavy." Producer Wagner states: "In 'Winter Carnival' we make people forget their troubles. We chose a New England setting for its colorful background, and the Dartmouth yearly sport-social event for the theme because the latter is the nation's most spectacular outdoor fete that is staged entirely by young men full of pep. Also, this event draws as guests one of the most attractive groups of young ladies assembled. Hundreds of them from throughout the East attend each carnival."

Winterime and the outdoors have been utilized to catch their spirit as a vehicle for the fast-paced and tumultuous romance in which Miss Sheridan is too attractive and wealthy to have a private life. Her divorce from a titled husband brings notoriety from which she flees, and in her attempt to evade reporters she runs right into the arms of Prof. John Weiden, played by Richard Carlson, whom she jilted during student days when she was crowned queen of the carnival. From here on the romance sparkles more than the night protechie displays as a young campus editor injects his scandal-bait journalistic ideas into their love affair.

## FLORIDA EXAMINES ITS ROADS AND THE TRAFFIC THAT FLOWS OVER THEM

Florida's state wide Highway Planning Survey was begun in 1936 under the direction of Walter M. Parker, chief of the Division of Highway Planning.

Designed to provide the facts on which a long-range, rationally planned highway program can be based, the Planning Survey is now nearing completion after three years of extensive research, during which approximately two hundred technicians have been employed. This gigantic research project has been carried out at a cost of \$400,000, of which \$150,000 was contributed by the Federal government.

The survey is divided into three sections: 1. Rural Road Inventory. 2. Traffic Survey.

Florida's state wide Highway Planning Survey was begun in 1936 under the direction of Walter M. Parker, chief of the Division of Highway Planning.

Designed to provide the facts on which a long-range, rationally planned highway program can be based, the Planning Survey is now nearing completion after three years of extensive research, during which approximately two hundred technicians have been employed. This gigantic research project has been carried out at a cost of \$400,000, of which \$150,000 was contributed by the Federal government.

The survey is divided into three sections: 1. Rural Road Inventory. 2. Traffic Survey.
